

## FAA-PMA V2500 EGT Thermocouple Wiring Harness Assembly

Herber Aircraft Service is proud to introduce our newest V2500 FAA-PMA EGT Harness. Part number 2A4524HAS is a one-piece harness designed to eliminate the current three-piece EGT harness which is believed to lead to incorrect EGT indications due to moisture ingress inside of the EGT junction box. The harness is in full compliance with Service Bulletin V2500-ENG-77-0015. Herber Aircraft Service takes pride in supplying the industry's most robust and reliable EGT harness for your V2500 engine.

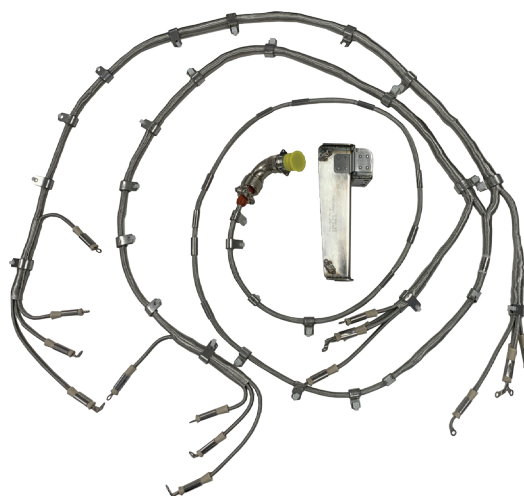

### Herber Aircraft Harness Benefits

Rapid delivery

Substantial savings over OEM price

Superior service life - longer repair/replacement interval

40 years of wire harness manufacturing experience

V2500 EGT Thermocouple Wiring Harness Assembly
