

# Nose Landing Gear Manifold Break-Out Box

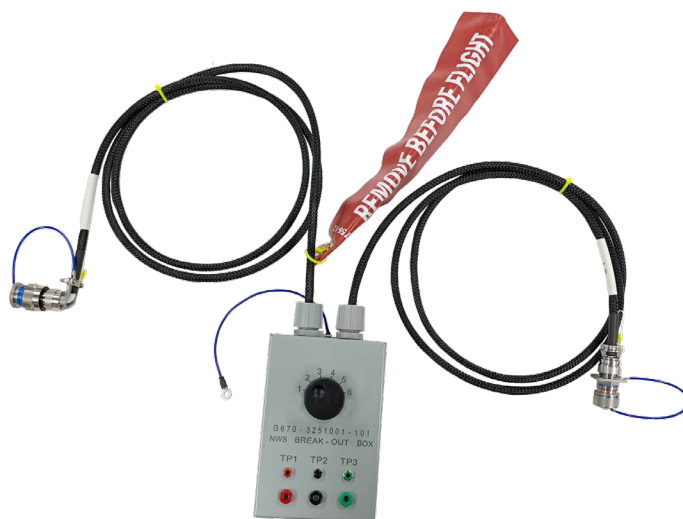

## Nose Landing Gear Manifold Break-Out Box

Herber Aircraft Service has over 35 years of expertise in wire harness manufacturing and repair services. We are the leading FAA/EASA/CAAC approved repair station for CRJ700/900 engine harnesses and certified to AS9100/IS 9001. Herber delivers a superior harness with enhancements that exceed the quality, reliability and value of OEM products, extending service life as much as twice as long.

The Nose Landing Gear Manifold Break-Out Box was designed exclusively by Bombardier for their CRJ700 and CRJ900 regional jet airliners.

The Break-Out Box is specified as part of the troubleshooting procedure for a nose landing gear steering issue and is included in Bombardier's fault isolation manual. Herber's quality guarantee will ensure your trouble shooting efforts deliver accurate results resolving the issue quickly.

### CRJ700/900 Nose Landing Gear
