# Snap Caps

## ■ CAP SIZES

Tedeco uses the standardized “modular” approach to filler cap assembly. We have three basic sizes into which we fabricate five coupling styles. Then we may add a long hinge pin, (so the cap cannot remain open), a lockband feature, or one of three special breathing systems. We have “designed-in” the maximum of flexibility in this family of filler cap assemblies.

**MF-911 & MF-921**

**MF-950**

\*Extension for press fit or bonding

Tedeco employs three standard filler sizes of snap caps as “building blocks”. Each unit may be used alone, or have standard (or a special) mount arrangement added.

Model	A	B	C	D	Free Opening Dia.
MF950	1.40	1.26	1.00	0.44	0.88
MF911	2.20	1.56	1.50	0.56	1.25
MF921	3.31	2.02	2.38	0.63	2.00

All dimensions in inches unless specified otherwise.

**F**or more than 45 years, the Tedeco Division of Vickers, Incorporated has been a leader in the production of fluid system products for industrial applications. Innovation, quality, and superior product design and performance exemplify our commitment to meeting our customers' requirements.

Today, Tedeco is the undisputed market leader worldwide for lube system diagnostics and systems monitoring products. And this leadership position is backed by a comprehensive network of company representatives and customer support facilities that offer the quick response needed for design and prototyping. Experienced engineering personnel and state-of-the-art machining provide the right combination of resources to understand the requirements of our customers and supply the products to meet those requirements.

The Tedeco Division of Vickers is poised to serve you. Challenge us to show you how we can help.
